

Director of Training

28 August 1953

Chief, Intelligence Training Division

Weekly Report

Submitted herewith is the report for the week ending 27 August:

1. It turns out that the auditorium [] will not be available for our use during the first week of BIC (I) 13. Other classes have been scheduled there for an hour or two a day, and it seems that they cannot be conducted elsewhere. We are now making arrangements to start our course in the R&S Auditorium.

STAT

2. Because a couple of instructors were on leave the School Staff was rather short-handed for the conduct of one of our projects last Tuesday. I asked the Staff of the BIC (CS) if they would give us some help, and they responded most willingly. Messrs. [] [] joined our instructors in conducting the project and the rating performance of the trainees.

STAT

3. There are 12 persons currently in the Provisional Training Group. The move to Curie Hall was made on Monday.

4. The Reading Improvement Branch has 109 trainees enrolled in seven courses. One covert and two Agency classes will complete training on 28 August. New classes are scheduled for 14 September.
